

### BOBCAT OR MAN-EATER? Expert Opinions On The Varmint Vary

HASKELL (RNS) — Two experts on Wild Texas wildlife said Tuesday within minutes of each other that bobcats are not man-eaters.

John Wallace (R) Haskell, who has hunted bobcats about the state for 20 years, said that bobcats are not man-eaters.

Wallace said that bobcats are not man-eaters. He said that bobcats are not man-eaters.

### BAKER

FROM PAGE ONE

An Internal Revenue Service report revealed that Baker said he would give his records to the tax service only if those of Johnson and former Wild Texas editor Walter W. Jenkins were checked, too — or if the publisher Ben John J. Williams of Delaware told him.

The settlement came from agent Donald H. Connelly.

Connelly has denied any charge of political bias.

He said it covered all taxable accounts, and rounded off transactions of \$100 or more between March 1, 1960, and June 30, 1961. There were 183 checks.

### 'March' Total At \$5,853 In Early Court

A total of \$5,853 had been reported by the court on Monday night, with the balance of \$1,000 to be paid by the end of the month.

The court said that the balance of \$1,000 to be paid by the end of the month.
